# The Spatial and Economic Transformation of Mountain Regions

Landscapes as Commodities

**Manfred Perlik**, Centre for Development and Environment  
at the University of Bern, Switzerland

*Series: Routledge Advances in Regional Economics, Science  
and Policy*

*The Spatial and Economic Transformation of Mountain  
Regions* describes the socio-economic changes and spatial  
impacts of the last four decades, with the transformation  
of mountain areas held up as an example. Much of the real  
world context draws on the Alps, spanning as they do, the  
significant economies of France, Italy, Germany, Switzerland  
and Austria. Chapters address academic discourse on  
regional development in these mountain areas and suggest  
alternative approaches to the liberal-productivist societal  
model.
